

TRI COUNTY RC CLUB

THE FLY PAPER

Charter number 434, March 1968

www.tcrnj.com

Covid 19 Unfortunately has Pulda Farms closed for a little while longer.

Members will be notified by e-mail of the next scheduled meeting and when the flying field will be opened.

Reminder: Club Meetings are always the last Thursday of the month. Except November and December, those will be announced.

Club Meeting for Thursday, May 28th 2020 is cancelled.

Meetings are held at the Monroe First Aid Squad Building

47 Monmouth Rd.,
Monroe Township, NJ

"Night Flying", Once per month
Its on the 2nd Saturday night.
Contact Rich McDonald if you have any questions. 917-860-5313
Or richamcdonald@hotmail.com

All "Night flying" events are cancelled until further notice.

Corona Humor..

When Larry K found out that his YAK 54, an ARF has Corona servos, (pictured below) installed in the aircraft he knew he had to take the proper protective equipment action.

See page 2 for details.

“The Captain of Aerial Shenanigans”, Mike D. has put out a tentative Fun Fly type of schedule for the 2020 flying season.

Dates are as follows:

March 28th:	Klunker Day	Cancelled.
April 25th:	Bi-Planes	Cancelled
May 23rd:	Heli Day	Cancelled
June 27th:	Jets	
July 25th:	Fly Fast Day	
August 25th:	War Birds	
Sept. 26th:	3D Day	
Oct. 31st:	Nothing but Foam Day	

Events are scheduled for Saturdays, with the rain date on Sunday.

Making use of the old canopy pipes, Armand and Tony C. built this small covering to house the old lawn tractor.
Pic by Tony C

“Club Hats are available. Purchases can be made at each meeting and the cost is \$15.00 each. Only a few left.” Contact Gerry R.

(Continued from page 1) Larry separated the planes, put masks on each and covered the landing gear with PPE gloves. When I looked up information on the servos on line, this is what it said.
All photos submitted by Larry K

Larry's Hellcat with PPE

Currently unavailable.

We don't know when or if this item will be back in stock.

Guess the Pilot

Guess the Pilot... Just for Fun

Each picture is one of a TCRC active aircraft pilot donning proper PPE while flying.

Text your answers to 732-586-9779 or e-mail to bgrankowski@optonline

*Be mindful ; Just because you are using the proper **safety equipment** doesn't mean you aren't going to crash*

Welcome New Members

TCRC would like to announce its newest members:

Andrew Toppin, He lives in East Brunswick and is a fixed wing pilot with numerous flights

Kevin Johnson, lives in Toms River and flies Helis.

Daniel Reyes, Daniel lives nearby in East Brunswick, and also flies fixed wing aircraft.

Mike Sica, Mike is a beginner to the hobby, has minimal experience and wants to fly multirotor aircraft. So please give Mike a helping hand.

Jeff Arouh hails from Kendall Park and flies fixed wing planes.

When you see these guys at the field, say hello and welcome them to the club. Maybe give them some help if they need it.

Mercer County Radio Control Society invite:

The Mercer club (MCRCS) will have an electric Fly on May 16th, the same as last year. This will be a fun Fly with other clubs invited. Check with the MCRCS to see if this event is rescheduled.

Construction of a Kit

Tony Eck is building a 1/3 true scale Sopwith Pup, imported by Vogelsang Aeroscale. CAD designed and CNC cut kit. It has a 106.3 inch wingspan and the fuselage is 74.8 inches in length. The estimated weight should be around 33 lbs.

The electric motor is a Scorpion S-5545 kv motor, Castle 120 amp ESC, 3 R&D metal gear, hi Torq servos and 2x5500 mah 6 cell batteries and a 27x14 prop. The motor makes 3950 watts @85 amps which is plenty of power and there are two 6 volt batteries for the receiver.

All photos by Tony Eck

Notice the yardstick standing next to the plane.

Notice the detailed gauges

Its time to think about some new projects, or aircraft to fly.

Here is a great bargain.

Brand New, In the Box **FOR SALE**

Bill Patterson has an eFlite Cherokee for Sale.

The plane is the 1.3m, bind and fly. This plane is a great addition to anyone's hangar and looks great in the air.

It has working navigation lights.

Contact Bill Patterson at 732-310-9968, or e-mail him at

ufpatterson704@verizon.net

How Things Have Changed!!!!

SAFETY FIRST

Have you inspected your propeller blades for cracks or chips?

&

Check all linkage arms for any signs of wear.
