SAFETY FIRST

If you are using a Buddy box when flying and training someone.

Be sure the **Throttle Shutoff and settings** are set the same on Both Transmitters.

Club Hats are available thanks to Frank Jones. Purchases can be made at each meeting and the cost is \$15.00 each. Only a few left.

Congratulations to one of our young members Shaun Wright for advancing his level of flying to **"Pilot"**

NIGHT FLYING Report.

As it was reported to me by Rich Mc Donald, no airplane or heli guys showed up. But the quad guys had 7 flyers. There were quite a few friends and spectators, and overall it was a good night for flying.

As the picture shows the quad site is quite impressive looking when it is all lit up. Nice job!

The newest addition at the field is a new shed built to house some of the grounds maintenance equipment and other items especially the Zamboni.

Thanks to team for building another great addition to protect the equipment.

The field is in great shape thanks to the hard work and dedication of the grounds crew. Tony C, Frank J, Gerry R. Bill P, Armand G, Larry N And others.

Still for Sale, Good Deal!

Walt Pererria, (a past TCRC member) is looking to sell a Ready To Fly (RTF) Apprentice S with Spare batteries. Walt is asking for \$200.00 or best offer. He can be reached at 732-991-5665

Brand New, In the Box FOR SALE

Bill Patterson has a eFlite Cherokee for Sale. The plane is the 1.3m, bind and fly. This plane is a great addition to anyone's hangar and looks great in the air. It also has working navigation lights.

Contact Bill Patterson at 732-310-9968, or e-mail him at ufpatterson704@verizon.net

Larry K brought his beautifully finished F6F Grumman Hellcat to the meeting to talk about. The model is manufactured by Hangar 9, and is a balsa and plywood construction airframe and covered with UltraCote. Larry modified the covering scheme on the wing and tail feathers to suit his preferences.

The WWII plane has a 64 inch wingspan and is quite roomy inside for the electronics and servos

Once again, an awesome plane by Larry K.

Larry's chose to power his Hellcat with a 15cc two stroke engine, but the kit can be powered with a 4 stroke, or electric power. Flying weight is between 9 and 10 pounds.

One of our members has passed away.

It is with sadness that I must inform you that Nick Sandor has passed away. Nick was a active member of TCRC, an avid flyer and a really nice guy. All who knew him will miss him.

Relatives and friends are invited to visit on Friday, October 18, 2019 from 6-9PM at Boylan Funeral Home, 10 Wooding Avenue, Edison.

All are welcome to gather at the funeral hone on Saturday at 10AM. Interment will follow at Holy Cross Burial Park and Mausoleum, in South Brunswick

Pictured below is Eric Fagan with his newest plane, a Dick Sarpolus original , Prime Cut plus 20.

Still For Sale : Great Bargains

Gerry Contrabasso has a few glo -fuel planes along with tools, fuel , coverings, radios, etc. that he is looking to sell.

He also lists a 40 size Stick with a 70 size 4 stroke OS engine that has never been flown with a new computer radio that has never been used.

Mr Contrabasso also has some 4 stroke engines, Saito and OS Engines that have been meticulously kept safe in original boxes and never crashed.

Gerry is unable to drive, so the buyer must pick up the merchandize at his house.

Gerry's email is gcontrabasso@yahoo.com or phone him at 609-395-7274 and leave a message.

His home is a 18 Merlot Ct. Monroe Township, NJ 08831
