SAFETY FIRST

Do not arm your electric motor until you've checked that the prop area is clear and the throttle is closed.

If you can, set up your radio to designate one of the channels as a Kill Switch for the motor.

Club Hats are available thanks to Frank Jones. Purchases can be made at each meeting and the cost is \$15.00 each. Only a few left.

Thunderbirds—plus one seagull

At the recent air show in Atlantic City my daughter captured this photo on her cell phone camera. Two opposing Thunderbirds perform one of their maneuvers perfectly, but it seems a seagull wanted to get into the act.

FYI this is not photo shopped and we didn't see this until we looked back at the pictures.

Still for Sale, Good Deal!

Walt Pererria, (a past TCRC member) is looking to sell a Ready To Fly (RTF) Apprentice S with Spare batteries. Walt is asking for \$200.00 or best offer. He can be reached at 732-991-5665

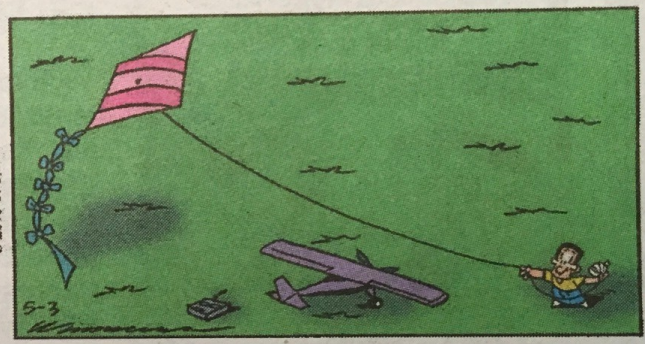

Great Trainer plane..

No One put in a guess for the aircraft manufacturer.

The jet model was manufactured by Fisher-Price from 1970 thru 1980. It had 4 seats, a hinged side door and made a whirring sound while pushed on the floor and the pilots head turned from side to side. The original price was about \$4.88.

ROSE IS ROSE Pat Brady & Don Wimmer

Just Some pictures from the last Theme Day “JETS”

Rick M. gets his EDF ready to fly.

Is it Mike D ?? You never can tell!!!

“Flight Complete”, Another successful EDF flight by Mike D.

Ricky C. get some helpful tips from Mike D.

Wings of Freedom Tour this past August at Monmouth Executive Airport in Belmar was a new adventure for me and my 11 year old grandson and I highly recommend it to anyone who has not seen these airplanes up close.

The weather was on the cool side with a slight mist in the air. We were able to walk thru the B17, and the B24 and get a feeling of how tight quartered these flying machines are. You could really appreciate the effort that each heroic man gave once in combat.

I myself was amazed with all the mechanical components, gears, cables, cranks, etc, etc. that made these aircraft airworthy and be kept combat ready.

Getting a close up view of the machine gun turrets in the front, tail and belly of the plane was a real eye opener as to how cramped these areas are. Walking, or should I say, twisting thru the bomb bay compartments was a real chore. You had to be careful or you could fall out when the bomb bay doors were open.

If you have the chance next year the tour comes about, its worth going to. The best part was the touchy-feely aspect of getting into the planes and being able to navigate thru them. But it must have something once the aircraft were in flight.

My hat goes off to all the service men that maintained and flew these flying machines.

BG

P 51 Mustang "Toulouse Nuts"

B17 "Nine O Nine"

B25 Mitchell "Tondelayo"

P40 Warhawk

Still For Sale : Great Bargains

Gerry Contrabasso has a few glo -fuel planes along with tools, fuel , coverings, radios, etc. that he is looking to sell.

He also lists a 40 size Stick with a 70 size 4 stroke OS engine that has never been flown with a new computer radio that has never been used.

Mr Contrabasso also has some 4 stroke engines, Saito and OS Engines that have been meticulously kept safe in original boxes and never crashed.

Gerry is unable to drive, so the buyer must pick up the merchandize at his house.

Gerry's email is gcontrabasso@yahoo.com or phone him at 609-395-7274 and leave a message.

His home is a 18 Merlot Ct. Monroe Township, NJ 08831
