12	WI	Oshkosh	KOSH	Wittman Regional	EAA Aviation Museum	Uber or Taxi a few miles				Y	https://www.eaa.org/aaa-museum	EAA says must taxi or uber	
<p>Notes: This list is primarily to identify musuems which GA pilots can access on foot after landing. However a few that require ground transport have also been listed just above. Many of the airports are still temporarily closed due to Covid, or have unusual opening times. Also the websites are frequently inaccurate or have not been updated. I strongly recommend the Museum be contacted by phone ahead of time to confirm parking arrangements and opening times.</p>													
<p>To plan a visit I recommend using google maps to find the exact location of the museum on the field, and then the airport diagram (Foreflight, Jeppesen, other) to identify the closest possible parking or FBO. Many of the musuems I've contacted have said that with warning, they will allow aircraft parking on their premises. Some however are just off the airport and only a short walk from the ramp or FBO. The parking information in the list above should be confirmed prior to a visit, airport layouts, regulations, and policies change frequently.</p>
